## Fatman Fabrications- Made in The U.S.A.

Everything we manufacture and sell is 100% made in our Mint Hill, North Carolina facility.  
When you call or email us, you are dealing with one of our employees as  
we never outsource our customer service.

# Fatman News

---

Our late summer/early fall car show and open house had a great turnout with some incredible machines on display. We have wrapped up our 2024 car show season and will make an announcement about our 2025 dates as soon as we have them set up.

Stacy David, who is a well known gearhead from his show Gearz, installed one of our complete chassis on a 40 Chevy. Make sure to check out his show and see how he went about doing the chassis swap.

Learn more about Stacy David and his show Gearz at:  
<https://staceydavid.com/>

### **We Build Chassis**

We manufacture a complete chassis with plenty of upgrade options to make your ride perform as you want it to!

### **Years Of Development & Engineering**

Our chassis are built using CNC Mandrel bent .188 wall rectangular tubing for more strength and lower cost!

### **Strongest On The Market Today**

Our chassis are the strongest on the market today, period!

### **100% American Made**

- \*Component manuals included
- \*Comprehensive QA on all products
- \*Nationwide shipping
- \*100% manufactured here in our North Carolina location by skilled craftsman
